

BioRoc

100% Natural Fertilizer

Mineralizes soil for vigorous plant growth.
Improves yields and plant nutrition vs. non-mineralized soil.

This product is a blend of several different nutritious mineral-rich Rock Powders and green waste. This is converted into a nutrient-rich plant, vegetable, and tree food. It is 100% natural with no added ingredients. It should be mixed into your garden in the early spring, two weeks before planting, then mixed into your soil several times throughout the growing season. Nutrients are immediately available to help grow vigorous, robust plants and trees.

0.3-0.4-0.18	
Guaranteed Analysis	
Total Nitrogen (N)	0.30%
0.30% Water Insoluble Nitrogen (N)	
Available Phosphoric Acid (P2O5)	0.40%
Soluble Potash (K2O)	0.18%
